## **Childhood Obesity Research Demonstration (CORD) Project:**

**Implementing Evidence Based Interventions to Prevent and Manage Childhood Obesity**

**Heidi Blanck PhD**

*Chief, Obesity Prevention and Control Branch*

**Carrie Dooyema MPH, MSN, RN**

*Behavioral Scientist, Obesity Prevention and Control Branch*

*Division of Nutrition, Physical Activity, and Obesity, NCCDPHP, CDC*

**Thursday, February 8, 2018**

**1:30 PM Eastern Time**

Background: In 2011, the Centers for Disease Control and Prevention's Division of Nutrition, Physical Activity, and Obesity funded 3 grantees and 1 evaluation center under the Childhood Obesity Demonstration (CORD) Project. The aim of CORD was to improve weight and healthy growth among low-income children by improving obesity-related behaviors, including diet, physical activity, screen time, and sleep. Grantees engaged with community coalitions and organizations to deliver evidence-based interventions in the places where families live, learn, and seek health care.

### **Objectives – The participants will be able to:**

1. Provide an overview of how CORD grantees adapted evidence based interventions in low income communities
2. Share results from Childhood Obesity Research Demonstration Projects (CORD)
3. Offer resources and lessons learned from project

### **AGENDA**

1:30-1:35	Conference Introduction
1:35-2:20	Presentation by Speakers
2:20-2:30	Questions and Answer and Closing Remarks

This web conference provides one hour of free continuing professional education credit that may be used to fulfill your professional continuing education requirements. Contact your professional association for more details on how to apply for continuing education credits. Ask your DNPAO Proctor for a certificate of attendance.
