

ASPHN's Obesity Prevention Nutrition Council

Our Purpose

To network public health nutrition leaders working to strengthen policy, programs, environments and services that promote a healthy weight and decrease obesity.

Here's How We Do It

- ✓ **PROVIDE LEADERSHIP**
On the role and competencies of public health nutrition in obesity prevention
- ✓ **ADVOCACY**
For evidence-based policies, programs, and funding that promote health equity, nutrition and physical activity
- ✓ **COLLABORATION**
With ASPHN members and partners to exchange information, share resources and enhance the capacity of one another
- ✓ **EXPERTISE**
As a trusted resource and partner on policy development, environmental change, evidence based programs and practices for national and state obesity prevention efforts
- ✓ **NETWORKING**
Between members and partners to build relationships to share experiences and build capacity in one another

Any Member Can Join!

“Improving nutrition, decreasing disease.”

The Obesity Prevention Nutrition Council is a council of the Association of State Public Health Nutritionists (ASPHN), a non-profit membership organization. For more information visit:
