

Breastfeeding Work Stream

Workplace Support		
California	The purpose of our state's Children's Healthy Weight CoIIN project is to build capacity to support workplace and school lactation accommodation and reduce related infant feeding disparities in California by June 2019. The CoIIN will target individuals and organizations providing lactation accommodation education and resources to communities with low breastfeeding duration. Outcome: All California parents who return to work or school after giving birth and choose to breastfeed/provide human milk will be equally and adequately accommodated.	
Team Lead	Karen Farley	
Louisiana	The purpose of our state's Children's Healthy Weight CoIIN project is to build the capacity of and expand the Louisiana Workplace Breastfeeding Support program statewide by August so that Louisiana worksites develop worksite cultures that support employees who choose to breastfeed after returning to work through organizational policy and practice change.	
Team Lead	Marci Brewer	
Wisconsin	The purpose of our state's Children's Healthy Weight CoIIN project is to assess and enhance efforts for workplace lactation support by August 2019 for local and tribal health agencies and coalitions so that there is coordinated and consistent statewide support, promotion, and implementation of workplace lactation strategies.	
Team Lead	Shawn Meyer	
Arkansas	The purpose of our state's Children's Healthy Weight CoIIN project is to support breastfeeding mothers who have limited access to health care by conducting lactation accommodation training for up to 4 organizations in Arkansas' Southeast/Delta region and other at-risk communities so that employers and communities learn, engage, and practice the support lactating women and change procedures/policies to provide accommodations. By allowing adequate space and time to pump, breastfeed, and store milk, we aim to increase duration of breastfeeding and exclusivity of breastfeeding in our intervention sites. Further, we hope that these advancements will begin to initiate a change in perception in culture and in communities where breastfeeding has not traditionally been accepted as a social norm.	
Team Lead	Kenya Eddings	

Maternity Care Practices		
Iowa	The purpose of Iowa's Children's Healthy Weight CoIIN project is to drive collaborative efforts for policy and practice that improve breastfeeding support across Iowa by October 1, 2019. Most of our most of our activities will be implemented statewide.	
Team Lead	Stephanie Trusty	
North Dakota	The purpose of our state's Children's Healthy Weight CoIIN project is to identify breastfeeding needs and offer support for key stakeholders in tribal communities and urban Native American populations.	
Team Lead	Mikaela Schlosser	

Nevada	<p>The purpose of our state’s Children’s Healthy Weight CoIIN project is to “Normalize Breastfeeding by Establishing Breastfeeding-Friendly Communities” by way of the Secondary Driver: “Family Support,” with measurable progress by January 1, 2021. We will target current and future breastfeeding women, infants, and children, their partners, and communities to increase statewide and community-level breastfeeding awareness and support. This will result in a subsequent increase in breastfeeding rates, including the rate of breastfeeding initiation and breastfeeding duration (of exclusively breastfed infants).</p>		
Team Lead	Jacquelyn Bonde		

TA Level States		
Indiana	The purpose of our state's Children's Healthy Weight CoIIN project is to increase peer and professional support by Fall of 2018, for breastfeeding mothers so that hospitals and WIC agencies can collaborate to increase breastfeeding duration in Indiana families.	
Team Lead	Courtne Leeper	
Nebraska	The purpose of our State's Children's Healthy Weight CoIIN project is to establish a relationship between the Nebraska WIC Program's Breastfeeding Peer Counselor program and a Nebraska hospital. The goal of the relationship is to create the ability to visit WIC moms in the hospital after they have given birth, as well as, create a system where the hospital will inform the WIC clinics when a birth has taken place. This relationship will be established by December 2018 for WIC moms so that they have early peer breastfeeding support which can potentially improve their breastfeeding experience.	
Team Lead	Narissa Scales	
North Carolina	To facilitate the development, implementation and/or integration of evidence informed policies and practices to support State Title V programs and NCDPH to improve health behaviors related to breastfeeding by August 2018 and to innovatively integrate nutrition into Title V MCH Block Grant and other MCH programs by August 2019 (adapted from ASPHN CHWC document—revised July 2018 via ASPHN). We are working to accomplish this purpose for present and/or future breastfeeding mothers (and their infants) in NC so that breastfeeding initiation and/or duration will increase.	
Team Lead	Diane Beth	
Texas	The purpose of the Texas Children's Healthy Weight CoIIN is to expand cross-sector collaborations to integrate breastfeeding support in state programs, increase capacity to strategically promote worksite lactation support best practices/Texas Mother-Friendly Worksite designation to targeted employment sectors, and leverage expanded collaborations to identify opportunities for increasing continuity of breastfeeding support and community normalization of breastfeeding by Winter 2018.	
Team Lead	Julie Stagg	

Physical Activity Work Stream

Intensive Level States		
Florida	The purpose of our state’s Children’s Healthy Weight CoIIN project is to increase the number of schools implementing components of the CSPAP model by December 2019 for students, including those with disabilities, so that children are at a healthy weight.	
Team Lead	Desiree Jonas	
Indiana	The purpose of Indiana’s Children’s Healthy Weight CoIIN project is to increase access to and knowledge of appropriate physical activity standards and activities with regards to the special needs population, by December 2019. Our purpose is to give the special needs population the opportunity to live healthier, active lifestyles by increasing capacity and knowledge of individuals that influence the behaviors of children.	
Team Lead	Kelsey Barrick	
Oregon	The purpose of our state’s Children’s Healthy Weight CoIIN project is to accelerate progress in implementing new physical education standards and laws, adding more physical activity to the school day, and strengthening education and public health partnerships over the next two years so that we can improve the health and well-being of students and staff in Oregon schools.	
Team Lead	Jennifer Young	
Texas	<p>Purpose 1: The purpose of the Texas Children’s Healthy Weight CoIIN project is to develop and implement a coordinated recognition system that includes self-assessments; technical assistance and training to implement evidence-based nutrition and physical activity standards in child care centers. Texas will have achieved this goal of the CoIIN when child care centers in the pilot sites have successfully implemented nutrition and physical activity strategies and are recognized through a healthy child care rating system.</p> <p>Purpose 2: The purpose of the Texas Children’s Healthy Weight CoIIN is to create a School Physical Activity and Nutrition (SPAN) survey for distribution in school districts around the state and along the border to assess all children, including children with special needs, on BMI and physical activity and nutrition behaviors. The survey is to be completed by parents for children in 2nd grade and by the students in 4th, 8th and 11th grade. Texas will have achieved this goal of the CoIIN when an adequate sample of surveys have been completed and an accurate assessment of Texas children’s weight and physical activity and nutrition status has been identified.</p>	
Team Lead	Ramah Leith	
Wisconsin	The Wisconsin Team’s purpose is to expand an existing online physical activity training to include content relevant and useful for out-school-time programs with high staff turnover and limited resources for training. By July of 2019 we will produce an online physical activity resource that will enable out-of-school time teachers and staff to integrate physical activity into daily programming.	
Team Lead	Bridget Cullen	

TA Level States

Nebraska	<p>The purpose of our state’s Children’s Healthy Weight CoIIN project is to work with school nurses to encourage schools to include children with special health care needs in physical education.</p> <p>The first PDSA cycle will consider using such an approach as partnering the child with special health care needs with a high school student to help keep the child (in any grade K-12) with special health care needs active as tolerated.</p> <p>The second PDSA cycle will consider an approach to encourage family involvement in physical activity with all children.</p> <p>These two cycles will help children develop a relationship with their high school student partner and their family members which will help improve physical, emotional and mental health.</p>
Team Lead	Narissa Scales
Nevada	<p>The purpose of our state’s Children’s Healthy Weight CoIIN project is to create a healthier school environment by increasing physical activity among students through implementing a Comprehensive School Physical Activity Program (CSPAP) and a physical activity awareness campaign to decrease the 38% of youth who are overweight or obese in Nevada.</p>
Team Lead	Eileen Hough
