

**ACT**

**What changes need to be made?** An evidence based standard needs to be developed for child care programs

Plan for next PDSA: Develop standard and get feedback from state and local child care programs and regulatory agencies. Training needs to be developed

**PLAN**

**Who:** State team, selected child care state and local staff, child care regulatory agency

**What:** Review current policy(s) as to TV standards for age, develop a rubric to assess policy based on evidence based information

**When:** 3 weeks

**Where:** Review during team meeting

**Potential Barriers:** TV easy babysitter, what else can they do in child care, workers need a break, resistance to more policies

**STUDY**

**Review data:** Complete- yes

**Analyze Data:** All current policies address limited PA, but not TV. Of the ones that address TV, there is no age differential

**What was learned:** There is a need for standards/policy on TV, but their needs to be training and suggestions on what to replace the time with and how to give workers a break

**Do**

**Who:** Staff

**What:** Evaluate current policy using evidenced based review

**Describe what is happening**

a. special circumstances-?

b. difficulties- all policies are not alike,
