Bio:

Erica Anstey, PhD, CLC works for McKing Consulting Corporation in the Nutrition Branch of the CDC where she works with the Maternal, Infant, and Toddler Nutrition Team on translating research into guidance. She received her PhD in public health from the University of South Florida in Tampa. Erica also has an MA in women's studies and is a certified lactation counselor (CLC). Erica's research interests include breastfeeding management issues, infant and young child feeding in emergencies (IYCF-E), maternity care practices that support breastfeeding, addressing breastfeeding disparities, and family-centered care. At CDC she is a subject matter expert in breastfeeding, works on the Maternity Practices in Infant Nutrition and Care (mPINC) survey, develops translational products, and studies surveillance data to track breastfeeding disparities, among other things.

Objectives:

- Describe the national breastfeeding surveillance activities and breastfeeding rates
- Describe the Maternity Practices in Infant Nutrition and Care (mPINC) survey and reports
- Demonstrate how to access and use CDC breastfeeding data
- Share CDC's breastfeeding resources
