Briefly describe why you are interested in filling this position:

- I feel that my experiences as a University professor, former public health nutrition practitioner, and mentor to entry-level public health nutritionists could be useful to the ASPHN Board of Directors as they work toward achieving the new goal of expanding membership of and services for students and early career professionals. I also have a long history of volunteering within ASPHN in a variety of roles from MCH council president to collaboration and governance committee member to ASPHN president. Each of these roles has given me insight into the activities and priorities of the Association, which I am happy to share with others on the Board of Directors.
