Topic: Feedback Session on Developmental Monitoring Materials for WIC

Description:

We Value Your Input: Join Us for a Feedback Session on Developmental

Monitoring Materials for WIC!

We invite you to join us in sharing your valuable feedback on developmental monitoring materials for WIC. As part of this year's work plan for the Developmental Monitoring in WIC Project, we are evaluating the WIC-specific materials currently available. Our goal is to identify what is most useful, what additional resources are needed, and opportunities to streamline or combine materials.

During the call, we'll provide a brief overview of the existing materials and then open the floor to gather your insights on what would be most valuable to you and your colleagues.

Your input will help shape resources that best support WIC programs and the families they serve.

**A recording will be available after the webinar for those who can't attend live.*

Congratulations to the Newly Awarded Supported States!

ASPHN is thrilled to announce that we have selected four states/agencies to receive funding and technical assistance to implement developmental monitoring using CDC's "*Learn the Signs. Act Early.*" (LTSAE) materials in several of their WIC clinics.

The four supported states/agencies are:

- Louisiana
- North Dakota
- West Virginia (Monongalia Agency)
- Wisconsin

Each state/agency submitted a strong application, and we are excited to collaborate with them in the months ahead!

To learn more about their plans and initiatives, we invite you to watch the recording of our [January Training](#).
